

Jewish Art & Craft

Melech Basadeh 3D Tree

Prepared by Miriam Spielman

Elul is a special month when Hashem is very close to us. He comes out of his “palace” and into the “field” to meet with us.

Let’s make a mitzvah tree, for Hashem’s field.

When finished, send a picture of your craft to ttreply@gmail.com for a chance to win prizes! And for your picture to be uploaded to our craft gallery!

To view the pictures, go to ttcc.info/gallery.

This week’s craft adapted from: iheartcraftythings.com

You will need:

- ☐ 1 x **light blue paper** or cardboard in A4 or A3 size. (Or you can print one from the coloured template below, or paint one).
- ☐ 2 x **Leaves Template**, printed out. (You can print one onto coloured paper or white paper and colour it. Or print out the coloured version).
- ☐ 1 x **Treet Trunk Template**, printed out. (You can print one onto coloured paper or white paper and colour it. Or print out the coloured version).
- ☐ 1 x **Apples Template**, printed out. (You can print one onto coloured paper or

white paper and colour it. Or print out the coloured version).

*You will write your good hachlotos onto the apples.

- ☐ 1 x **children’s scissors**
- ☐ 1 x **gluestick**

Instructions:

Step 1:

Position your blue paper in portrait orientation, long way up and down like this.

Step 2:

Cut a piece of grass from the template pages and paste it onto the bottom of the blue paper.

Step 3:

Cut a tree trunk from the template pages, and paste it onto the blue paper, with the bottom part touching the grass.

Step 4:

Cut out the leaves strips from the template pages. Two pages worth, about 40 strips.

Step 5:

Glue the ends together to make rings.

Step 6:

Paste the ends of the strips together to make rings. These rings will be your leaves.

Instructions continued:

Step 7:

Starting on the middle of the page, paste the rings all around to form the leaves of our tree.

Step 8:

Cut out the apples from the template pages.

Step 9:

Write onto some of the apples, your special mitzvos that you are doing or your special hachlotas that you plan to do.

Step 10:

Paste some of the apples onto the leaf rings.

Your mitzvah tree is complete 😊. You can hang it in your room or on your fridge.

Also, remember to **send us your pictures** to: **ttreply@gmail.com** to post it on our gallery and for a chance to win prizes.

Here is a background, if you don't have a blue coloured paper would like to print one out.

3D Tree Leaves

Strips Template

20 strips per page. Cut 2 pages (40 strips for leaves)
